

# ProfeLAC<sup>®</sup>

## SHEPHERD

*Elevated levels of fat and protein combined with low ash and lactose to support low risk, rapid, early growth in kids and lambs.*

### A premium milk replacer formulated to support rapid early growth in lambs and kids

- ✓ High in fat, a source of readily available energy, to aid body temperature maintenance and encourage early growth
- ✓ Highly digestible protein sources support early growth rates and lean tissue development
- ✓ Added vitamins and minerals support early health, immunity and skeletal development
- ✓ Scientifically proven prebiotics, probiotics and postbiotics support optimal gut health, immunity and gastrointestinal tract development

High quality ingredients are carefully processed to ensure optimal digestibility, making **ProfeLAC<sup>®</sup> SHEPHERD** an easy to mix formula, suited to both restricted and *ad lib* feeding systems.

Formulated specifically for lambs and kids, **ProfeLAC<sup>®</sup> SHEPHERD** is low in lactose and ash, reducing osmolality and helping to reduce the risk of gastro-intestinal upset in these young animals.

**28%** | **25%**  
**FAT** | **PROTEIN**

**ProfeLAC<sup>®</sup> SHEPHERD** is ideal for replacement kids and ewes, and for lamb and kid rearers looking to take advantage of rapid early weight gain.
